Breve descrizione

Built in 2007, HELIOS is the result of collaboration between Perini Navi and naval architect and Ron Holland. This ocean cruising yacht combines luxury and comfort with excellent sailing performance.

Perini Navi conceived the classic interior design which is predominantly mahogany and mahogany briar. HELIOS boasts a particularly large internal volume and she has a unique, adaptable interior design which allows the master suite to be divided into two cabins.

Materiali

Scafo:
Acciaio

Tuga:
Alluminio

Coperta:
Alluminio + Teak

Idraulici
